

COVET DESIGN GROUP

We are a Portuguese business group where design is a strategic and differentiating factor for our business development and our goal is to elevate Portuguese Design to a worldwide level.

Recognized as an organization with proven experience in design, we are known for our creativity and revolutionary attitude.

With a powerful vision about the future, we have several internationally recognized furniture and lighting brands such as *Boca do Lobo*, *Delightfull*, *Brabbu*, *Essential Home*, *Maison Valentina*, among others.

We have several Departments such as Visual Communication, Marketing, Design Studio, Logistics and even our own Production Unit, named *Preggo*.

Our partnership proposal is based on the following assumptions with advantages for both parties:

- Dissemination of our job and internship offers with old and current students; At this moment, we have opportunities in many areas, like: product design, web design, graphic design, social media, photography, and many others)

- Integration of students interested in performing internships in our brands, departments and production with possibility of continuity after the end of the referred internship period.
