ABOUT US
Narva Art Residency (NART) is a cultural platform founded in 2015. It facilitates residencies, art exhibitions, talks and educational workshops. It is located in Narva city on the Estonian-Russian border on the historical Kreenholm site. The international artist-in-residency programme is open for artists operating across a wide range of disciplines, including visual arts, music, performance, architecture, design, film, literature, curatorial practices and more. It generates creative exchange between practitioners and strengthens links with the local community. The centre is located at a historicist villa which was originally built for the director of Kreenholm Textile Manufacture. In close proximity stand the vacant factory buildings which once formed the largest enterprise of its kind in Europe (anno 1857). Narva Art Residency is operated by the Estonian Academy of Arts in collaboration with Narva Gate and is supported by the Estonian Ministry of Culture.
